

# Spring 2018

## SDX11 - Thursday, March 22, 2018

### Gamification & Systemic Design

Using a recent Alberta CoLab case study, we will explore gamification as a tool to generate shared understanding and surface system insights from ethnographic research.

## SDX12 - Thursday, May 31, 2018

### Method Deep Dive: Rich Pictures

Rich pictures may be the most accessible system mapping tool, but are you getting the most out of your rich pictures? Join us for a deep dive into this popular method.

## SDX13 - Tuesday, July 3, 2018

### LEGO my System

In this interactive session, we will explore how to make soft systems more tangible using one of our favourite tools for serious play.

SDX is an Edmonton-based Community of Practice that convenes people interested in learning about systemic design as a methodology for addressing complex, real world issues. Together, we explore systems thinking, design thinking, and lab approaches.

With a bias towards learning by doing, SDX aims to be a watering hole where multiple sectors can come together, learn together, and act together.

SDX is convened by the Government of Alberta CoLab and the Skills Society Action Lab.

All SDX Sessions take place from 1:00 p.m. to 4:30 p.m. at the Action Lab (2nd Floor, 10408-124 Street, Edmonton).

**RSVP Required.** Please see Eventbrite or Twitter for registration information.

There is a small admission fee for SDX sessions. Proceeds are used to arrange snacks and plan special SDX events and speakers.
